

Teacher Created. Teacher Owned.

Can't Find Time to Teach Social Studies? We can Help!

Our teacher-created Social Studies units offer:

- step-by-step lesson plans with measurable objectives
- complete programs that are ready to use *right now!*

Reading-based Social Studies programs teach students to comprehend difficult expository and functional text.

Differentiated instruction meets the needs of all learning styles. Our balanced mix of hands-on lower and higher level activities are ready to use with whole groups, small groups, cooperative groups, and in centers.

Our materials **span the entire curriculum** so teaching Social Studies as an isolated subject is a thing of the past. Teach Reading, Language, Math, Science and Social Studies all at the same time.

In Addition...

Our US Region Series has been recorded word-for-word on audio cds, making it easy to set up a listening center.
