## English Language Learners and Reluctant Readers? We can Help!

Social Studies text is one of the most difficult to read and comprehend. That's why our **US Region Series** has been recorded word-for-word on **audio cds**.

**English language learners** and **reluctant readers** can learn about the history of each of the 50 states at their own pace.

Having lessons on audio cds ensures that students who are **absent** or receiving **special services** outside of the classroom can keep up with their classmates.

**Differentiate instruction** with audio cds by using them with **guided reading** groups, in a **whole group** setting, or in a **listening center**.
